

Kane Wins on Three Wheels:

It certainly wasn't the most conventional of ways to take out his fourth feature race victory of the 2010/11 season, but Darren Kane was able to miraculously take out the sixth round of the Proton Queensland Super Sedan Series last Saturday night at Brisbane International Speedway on just three wheels.

The Boettcher Racing Team driver suffered a left front tyre on the opening lap of the feature race after contact from another driver, but he didn't let it deny him of taking out the winning spoils.

"It was a tough task to nurse the car through to the finish, but I was able to hold take out the win after adjusting my driving style and also having a bit of lady luck on my side along the way helped too," commented Kane, who had amazingly recorded the second fastest lap of the feature race on the 13th lap. "Those restarts made me a bit nervous each time, as I was worried that the rim would dig into the track or something like that during the roll around laps and I'd be stuck."

Throughout the opening half of the feature race Kane sat in second place behind leader Steve Jordan, but he moved into command during the middle stages when the latter spun out of winning contention.

"I knew that if I stayed with Steve [Jordan] and kept the pressure on then I'd be a chance of winning and that was how it played out," the QLD # 36 Boettcher Race Parts supported Dominator Mazda RX8 driver said, who had earlier in the night won two out of the three heat races, finished third in the other, and then qualified on pole position for the feature

race after he had taken out the Top 6 Dash event. “Up until we suffered the flat tyre in the feature race the car was performing great and it was just a shame that we weren’t able to get the most out of the car due to that problem.”

Once again, Kane’s latest and fourth feature race victory of the season has consolidated his lead in the Proton Queensland Series point standings.

Kane and the Boettcher Racing Team are set to next be in action at Kingaroy Speedway for the seventh round of the Proton Queensland Series on Saturday night, December 18.
